FOR IMMEDIATE RELEASE

Crosslink Launches eNews on Website

March 09, 2007 – Crosslink International Inc., manufacturer of rubber and rubber to metal applications for the automotive, industrial, and specialty markets takes its exceptionalism to your desk. This is an effort to provide adequate communication to assure the outside world is aware of Crosslink's news worthy events. Crosslink will initially focus on its supply chain, and awareness of all requirements, compliances, and successes. Crosslink's Document Control department, which already handles the documentation details of its supply chain internally, will incorporate an outside eNews communication where applicable.

Crosslink's easy to navigate, redesigned website currently includes multi-media capability including pictures, videos and now press releases. These new features will enable Crosslink to communicate its value and competence to their core markets.

Crosslink International, Inc is a World-Class Elastomers Company serving the Automotive, Industrial and Specialty OEM markets. Our core competencies revolve around the Design and Development of complex rubber, and rubber to metal applications. Crosslink is dedicated to being the leading provider of high-quality, custom elastomer products to the Americas, European and Asian markets.
