FOR IMMEDIATE RELEASE

Crosslink Outsources Metals

August 29, 2008 – Crosslink International Inc., manufacturer of rubber and rubber to metal applications for the automotive, industrial, and specialty markets has completed the outsourcing of all metal products used for the manufacture of their rubber and rubber to metal products.

This outsourcing indicates the need to maintain a lean and right cost product for our customers. Crosslink's initiative will allow our supply chain to ultimately provide quality metal products for the best price. Crosslink is confident that their customers will win as a result.

Crosslink International, Inc is a World-Class Elastomers Company serving the Automotive, Industrial and Specialty OEM markets. Our core competencies revolve around the Design and Development of complex rubber, and rubber to metal applications. Crosslink is dedicated to being the leading provider of high-quality, custom elastomer products to the Americas, European and Asian markets.
