**FOR IMMEDIATE RELEASE**

## **Crosslink International Achieves ISO 2008 Recertification, Celebrates ZERO FINDINGS in 6 Years**

May 12, 2014 – Crosslink International Inc., manufacturer of rubber and rubber to metal applications for the automotive, industrial, and specialty markets recently earned recertification from Dekra Recertification, Inc. for the ISO 9001:2008 Standard. The recertification is valid until May 12, 2017.

This designation acknowledges that the practices and processes comprising Crosslink's quality management system are in compliance with the ISO 9001:2008 standard for design and manufacture of rubber and rubber to metal applications. This certificate provides Crosslink's continued credibility in the market and is indicative of its commitment to our customers' quality requirements.

Steve Pollazzi, Business Development Manager and ISO Management Representative, said, "Our recertification is an accomplishment, yes, however, credit needs to be passed onto our department leaders' commitment to our ISO quality system. The recertification is truly a team effort, and has become an exceptional day considering we are celebrating this recertification with ZERO FINDINGS in six consecutive years."

Crosslink International, Inc is a World-Class Elastomers Company serving the Automotive, Industrial and Specialty OEM markets. Our core competencies revolve around the Design and Development of complex rubber, and rubber to metal applications. Crosslink is dedicated to being the leading provider of high-quality, custom elastomer products to the Americas, European and Asian markets.
